

5th Global Allergy Forum (GAF)

October 16–19, 2025 | Medicine Campus Davos, Switzerland

ALLERGY & ENVIRONMENT

Loss of Balance and Ways to restore it

Dear Ladies and Gentlemen, dear Colleagues

On behalf of the founders of CK-CARE, the members of the Scientific Board and the Board of Directors it is our honor and great pleasure to announce the 5th Global Allergy Forum (GAF) addressing allergies and the environment.

The 2025 think-tank meeting will focus on finding ways to restore the lost balance in allergies and the environment. Invited experts and key opinion leaders from all relevant topic areas, as well as other fields will work in five dedicated groups to discuss and explore possible solutions: (1) How to improve patients' lives, (2) Trained immunity toward cure, (3) Disrupted barrier(s), (4) Psycho-neurogenic aspects and impact on patient care as well as (5) Digitalization of medicine and AI.

Group findings and suggestions will be presented in the plenary where all participants are encouraged to engage in discussions and to share their experiences and novel ideas. The aim is to identify unmet medical and research needs. In order to collaborate as effective as possible during the think-tank meeting, participant groups will connect beforehand and are asked to present identified current challenges and current solutions in the intro plenary session.

We look forward to welcoming you in beautiful and inspirational Davos.

Best wishes,

CK-CARE Scientific Board

Claudia, Cezmi, Charlotte, Peter, Roger, Thomas and Johannes

Chairpersons/Moderators/ Organizing Committee

Prof. Dr **Peter Schmid-Grendelmeier**
Dermatology, Allergology
Zürich & Davos, Switzerland
